MEMORANDUM FOR: Operations Officer, NPIC

VIA : Chief, CIA/PAD(NPIC)

SUBJECT : CIAPAC General War Plan

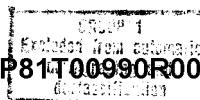

REFERENCE : TS-177034

25X1A

1. Per your request of 6 June 1962, I reviewed the referenced document for those aspects of interest to or possibly affecting this office. As you are aware this office has provided considerable support [redacted] defined in Annex N. In time of war this requirement would be immeasurably increased on all fronts. This document nowhere explicitly provides for PI support for UW operations. There is one reference to PI support at CINCPAC in Annex D, page 8, paragraph 5b. It is not clear for what purpose these PI's would be sent from CINCCIPAC to CINCPAC. Appendix III gives the Headquarters personnel breakdown and it will be noted only one PI is provided. This is possibly due to a reliance on the component commands of CINCPAC for this service, but this is not spelled out.

2. The plan does state that PACAF will have the responsibility for aerial reconnaissance. Does this include PI support to all CIA/PAC field units? Our experience indicates each field unit charged with developing and running operations should have integrated PI support. There is no mention of processing film and only one reference to a film library for maps and charting purposes. Therefore I feel that the following are questions which should be spelled out, possibly to be incorporated in a separate Annex to the plan:

- a. Is PI support to be provided, and if so, at what level?
- b. Is PI to be provided by Military or will it be integral to CIA operational units?
- c. Who will provide film and collateral support to the CIA field components for PI use in excess of local collections?
- d. Is PI training for the War Plan Support to be initiated now and if so, where and at what level?
- e. Where are the PI's cited in Annex D, page 8, paragraph 5b, coming from?

Page Two

- f. Is processing and reproduction to be provided entirely by Air Force units and if so, at what level of command and how near the CIA operational units?
- g. What is the role of NPIC in supporting this war plan; or is all support to emanate from CINCPAC?

Deputy Chief, CIA/PAD(NPIC)
